I am totally against this "Rule/Mandate". 1 main question I have is this..please explain why you, an UNELECTED panel of just 7 people appointed by the governor, NOT PUBLICLY ELECTED, have the audacity & feel you have a "right" to tell me what car I have to buy & drive with MY money!

State government does not have the right to do this & is ridiculous, & we will fight to appeal it if you overstep.

The power grid is fragile as it is, the infrastructure is not there, power bills are already sky high insane, repair bills are astronomical! Like average people can afford this!

Like perfectly demonstrated with the recent storm, EV would be at the mercy of the weather. Lots of people would've been totally stranded during the emergency with no way to charge car!

I think you should listen to what the people who live here want, & stop trying to control everything that you have no business/right to do. LISTEN TO THE PEOPLE!
