I am writing to ask you to not vote for making Mainers buy electric cars in the future as proposed. We are not a rich state. How do you think this would impact the average Mainer? The costs and repair costs of these vehicles are out of reach for most of us. In addition, electric cars do not operate very well, (or at all) in cold temps. It makes no sense at all. Please do not put such a burden on your fellow Mainers.

Thank you for taking comments.

Ann Barnett
Lifetime Mainer
