To whom It May Concern:

This letter is being presented to express my opposition to 127-A, Advanced Clean Cars. I could list numerous reasons, but, I will stick with a few.

Freedom of Choice for the American people

Unreasonable

Too much usage for the grid, no spots to recharge and slow to do so.

Not affordable for the consumer.

Unreliable in winter

Disposal of parts?

Maine stands on its', not California.

Dishonest information from group pushing for electric cars.

Simply not wanted, not palatable.

Mandates: Not what the people want or need, or accept.

Sincerely,

Ann Grange
