To the BEP;

The Electric Vehicle Mandate is an unfair and hurtful thing to do! It takes our freedom away. In Maine, most of us cannot afford a \$50,000 and above vehicle. Especially one that doesn't operate in the cold! Look at Chicago! And road rage would elevate because it takes so long to charge and traveling would be difficult.

Also it uses fuel for the Tesla charging stations! So it still uses fuel! It's not green. If people slow down, fuel usage slows down. So many people seem to be in a hurry. Our electrical grids cannot handle the increase in usage.

We pray that our rights are not stripped away and we all do some serious research on electric vehicles.

Thank you!

Bill and Julie Gee
