**Subject:** Maine's EV Rule

EXTERNAL: This email originated from outside of the State of Maine Mail System. Do not click links or open attachments unless you recognize the sender and know the content is safe.

It is a rediculus timeline. Our state is not ready geographically, climate (cold) and especially economically. Most of Maine not affluent.

This is nothing but big government taking our rights away. EV's should be optional for citizens who can afford them and are living in populated areas where charging is more readily available.

Please put a stop to this. Like some one else said "Maine is not California". Thank God !!
