To whom it may concern;

I would like to register my opposition to the Clean Cars II proposal. The decision for Mainers as to which cars and trucks to purchase should be left up to the individual buyer. Let the free market decide whether more people want vehicles that are electric not bureaucrats and politicians making rules in Augusta. Common sense has gone away and has been replaced by ideology on this subject. The irony that the hearing was postponed due to a massive storm related power outage is not lost on me. I will never choose to purchase an electric vehicle. Leave that choice up to me.
