Dear Committee Members:

This mandate is ridiculous in a state as poor and rural as Maine. Have you thought about this for two seconds? The extent of poverty level existence and unreliable grid make it a hardship in more ways than one for many Mainers to switch to electric vehicles. This mandate needs to be round-filed.

Electric cars are great for city living. The majority of us don't live in cities. Making a mandate that would benefit the 10% is ridiculous. I've used that word a lot here's, because it's warranted. Get real!

Carol Sullivan  
Rangeley, Maine.
