It is quite obvious that the mandating of Advanced Clean Cars II program cannot work for Mainers. It has been proven and we have seen proof of the immense failures of these EV vehicles. TO the point that several auto manufactures are stopping or delaying the creation of these types of vehicles. Might work for city traffic (which I doubt) but for Mainers it is a definite NO!

You can see the ill effects these vehicles have already created!!! Use your common sense and watch and see how these EV's will actually be more damaging to our environment then fossil fuel vehicles will ever be.  
Let us Mainers buy the car of our choice not the State or the Feds.
