I'm totally opposed to the electric vehicle mandate! I want you to know that I'm a Maine resident, I have been all my life and will continue to be. It's one thing for people to want and buy electric cars which is their choice, but a whole other problem to mandate it for our entire state! We as Mainers should be allowed to buy the car we want and not mandated to purchase something we don't want. Not to mention the problems of what it will do to our state budget to have enough charging stations in order to take care of all the mandated electric cars. What's good for one state is not necessarily good for our state! Please vote no on this important bill!
