Consideration on this proposed rule should be indefinitely postponed and removed from consideration. The hardship this will place on the people of Maine would be incredible. Not only is the expense out of touch with the Maine median income but the technology is not fully reliable for Maine weather, as the busses for Wiscasset schools indicate. If further proof is required our most recent weather delaying the last vote should set the tone for EV's for all being a non-starter. Shame on the State for even considering this rule.

Best wishes,
Christopher Thacker
