Dear Electric car panel,

My wife and I have had two Toyota hybrids and we love them, but we will never buy a total electric car, as we want to get back home, and not wait hours in the cold or heat as it is charging, so we freezing to death.

This all electric is a waste of time in Maine. Electric cars are a big scam in our book with all the leader getting rich off it, and using our tax dollars to push this idea.

Did the Government pay for gas stations when Henry Ford sold the Model T car? NO. Now you are spending \$100,000.00 + for a car battery charger that should be \$5,000.00 , MONEY CRAB on out Taxes Dollars!

America was a free country once. Now you all are killing it, think before you act! **It is not working!**

It is our money and we are not buying it. LEAVE OUR FREEDOM ALONE!

When will the silent majority wake up and vote you all out before we are a complete 3rd world country!

Thank You,

Dave Call
