Hello,

Please do NOT adopt Chapter 127-A. We don't live in a warm weather state, we don't have the charging stations in homes needed for cold weather charging. We drive much longer than the twenty to thirty minutes of Norway's population; all of which will create a real disaster in the coming years if we require EVs as our main vehicles. In addition, the maintenance and insurance will force many people to have to decide to live here or move.

This policy is not ready to be put into place in the state of Maine.

Debra Sykes
