Governor Mills, Maine State Senators, Maine State Representatives.

The State of Maine is the recipient of all of the air pollution from every State West and South of us. Our population is smaller by comparison than Boston and suburbs and our State is largely open territory.

Any pollution caused by Maine's population is so minuscule by comparison It wouldn't even show on a scale of 1 to 10. When and only when, all States South and West of Maine adopt and mandate a 51% Electric Vehicle law, then maybe that will be the time to consider it for Maine.

Any such law penalizing the population of Maine is absolutely asinine !!!!!

Evan Churchill
