To Whom It May Concern:

Please do not buckle to outside special interest groups attempting to force Mainers to buy electric cars.

Many Mainers can't afford EV's.  
Can they really drive well in our cold winters? No !

What happens during power outages?

What do we do with the dead batteries? Bury them in our woods?

The people who benefit from EV's are outsiders like the CCP who are making these parts for us with the excessive use of coal fired factories.

Put Mainers first and vote no on this mandate.
