In response to the asked for public comment It is my firm belief that copying California's emissions standards is a big mistake for maine. We Maine people do not want another liberal Bill stuffed down our throats; when only 1% of Maine people are in acord. This is next to tyranny.

The rule's delayed implementation means we are jumping right to 51% mandated EV sales, even though less than 1% of Mainer's chose them now. Despite claims by environmental extremists, this rule destroys consumer choice and will increase prices for the new and used vehicles people actually want to drive.

**I urge you to not support the proposed Chapter 127-A . THIS** is a back door effort to thwart the people of Maine, and their coveted freedom of choice.

Thank you, Herbert & Barbara Weiss, Mariaville, Me.
