To the Rules Committee:

I'll try to be civil, it's difficult. As has been pointed out our forests are capable of "digesting" 400% more CO2 than is emitted by cars in this State. Carbon dioxide occurs naturally in small amounts (about 0.04 percent) in the Earth's atmosphere.

Carbon dioxide is a minor part of the air that humans breathe, Maine does not have a CO2 "problem", the Nation doesn't have a CO2 problem, greenhouses add CO2 to promote plant growth. (Same with the BOGUS CHINESE pot growing houses)

Anybody stupid enough to vote for this EV Mandate (GARBAGE) pushed by vested self-interested parties MUST BE VOTED OUT OF OFFICE!
