Please do not pass this bill. Maine is not in a good position to require 80 percent of new car sales be electric cars. Maine's electric grid cannot handle that demand for power. There are not enough charging stations, batteries perform poorly in cold weather. The electrical grid is not sufficient ! Maine is a large rural state, but I have only heard a of charging stations being installed in the larger cities, Bangor, Portland.

This is a very poor plan; it will not work in Maine. It will take 2 days to drive from Lisbon Falls to Sinclair Maine due to the need for recharging!
