This is a free country and if you all want to make charging stations available and incentivise EV's thats all right, but do not tell me what I have to buy for a car. California is wrong but then again they are CALifornia. There is such a thing as free will and the more laws control how we can live, the more we are like Russia. Please do not mandate dates and quantities of EV's that must be sold. This is up to each and every individual.
