No one should be able to tell any individual what they have to drive as long as it is registered, compliant for safety and they are an American citizen of the state they reside in. I don't want an electric vehicle! How are they going to dispose those humongous batteries? Where are the minerals needed for them coming from? How much of our taxes will be used to provide the numerous charging stations? How is this going to affect MAINE, VACATIONLAND - our tourism??? How many vehicles will clog the turnpike that have run out of power??

NEVER should any US citizen be forced to drive something they don't want. WE ARE FREE TO MAKE OUR OWN DECISIONS.
