To whom it may concern,

I am writing because I do not feel Maine should be adopting this law. Maine is not California, and electric cars and all these things California wants on vehicles will not work in Maine. Our weather is too cold and snowy for these vehicles.

Maine people do not get paid what California people get paid and there is way more low income people in Maine. We can not afford the prices of new vehicles in this state now let alone how expensive they will be with all the regulations.

Please start thinking about the Maine people and stop thinking we are a rich state. Stop this bill from going through.

Thanks

Kari Seavey
