I do not agree with this. I work hard enough for the money I earn and you already take enough of it out of my pocket through taxes the last thing I need is for you to tell me what I can or can not purchase for a vehicle. Not to mention this is a totally ludicrous idea for rural Maine. Travel distances are further and CMP's power grid is absolutely useless. How well are those electric cars going to charge when a wind storm knock out the power to half the state for 3-5 days. Smarten up and lets start making policy that actually helps the citizens of this state.
