Have you lost your fn mind?! The population of Maines homeless and the fact that the the other half can't afford their rent warrants a decision that cars should now be electric?!?! I can barely afford to make my bills, now I'm going to have to have an over priced electric car that I can't get a loan for, with a small business that struggles in Maine? I've seriously been thinking about going home to my home state because this state honors constant narcan for drug abusers that don't pay taxes, yet people who need insulin can't afford it...mind you...tax paying citizens. I will close my shop, take my business out of state!. It's bad enough that we are being dictated to about who we can vote for, now this. Get a grip Maine, you're becoming the joke of America!
