I'm proud to be a Mainer. I do not want to follow California rules. It doesn't make sense for all of us here. When our power was out for several days, it reminded me that some of us would have been stuff if our car wasn't charged up!

It doesn't make sense for many Mainers especially up north where the income level cannot support electric cars.

Please, do not let this pass. Thanks you, Margo Lambertson from Oxford, Maine.
