I oppose the California Rule on Maine vehicles. I don't feel Maine has consensus on this issue and I believe many of us, but certainly myself, feel forced into technology that has questionable economic consequences. It feels a little like the decision of a minority to compel Maine citizens to fall in line with a vocal minority. The nation does not have the infrastructure to support it and in the future can require unreasonable mining of rare minerals and a temptation to rely on foreign nations.

Please defeat this bill.
