To mandate only electric cars to be sold is absolutely crazy. I can't believe that you are so numb to not realize that living in the country and small towns that these vehicles are not safe or trustworthy for us to rely on. Have you not been listening to the news and the problems they have created in different states. We have to travel 90 miles to many doctor appointments and procedures. That vehicle is not dependable. This country is pushing for a disaster and a Communist rule. We know our needs and should be able to make our own decisions on such a matter. Who do you think made the climate change hundreds of years ago? It is a cycle and only God allows the changes in His timing.

The Democrats are destroying our country at present and before long there will be no hope for the people living here. Get a clue!

Mary McLellan
