My name is Michael Peaco and I am totally against this proposal to force electric cars on the good people of Maine. Most of who cannot afford an electric car and just do not want our freedoms taken away from us to choose what type of vehicle we want to drive. Never mind living in a state with cold winter weather where electric vehicles do not perform well and the infrastructure is not there to support such a move especially in a rural state like ours. Leave the choice to us, no to mandates. Thank you... Sent from my iPhone
