This program is absolutely outrageous. So many people have had problems with the heat and cold in traffic jams. This is all about who's getting money in whose pocket. It's time to stop big business from buying politicians. My neighbors friend lost her 9 year old son because an electric car battery caught on fire in the middle of the night and burned down the house. The smoke and fumes from electric batteries are much worse than a regular fire. Also, they are so much harder to put out. We should be able to have a choice of what we want.
