I am writing to oppose the "California Rule" mandating electric vehicle sale starting in model year 2028. The average, hard working citizens of Maine cannot afford the cost of an EV, let alone the increase if electricity costs associated with this law. Also, last time I checked, the gasoline tax is what funds the construction and maintenance of Maine's roads and bridges; it's time, long over due, to charge EV vehicle owners a fee/tax to support Maine's highway system!

Respectfully submitted,

Paul W. Greenwood
