I am firmly opposed to mandating that people have to buy electric vehicles. Mandates of any kind are just wrong and these stupid rules that somebody made up for our own good really irks me. I'm all for a clean environment and I know for sure that the air and water in this state is cleaner now than it was 40 years ago. The climate alarmists need to go and be replaced by folks with common sense. I don't want the great state of Maine to become like California.
