Establishing a program to reduce emissions from on-road vehicles over 8,500 pounds gross vehicle weight rating (GVWR) by incorporating the requirements of the California Advanced Clean Trucks regulation and is intended to accelerate sales of zero-emission vehicles over 8,500 pounds GVWR is not feasible. The United States has the cleanest air qualities compared to the rest of the world.

We are not California and should not follow in there so-called rules. I oppose this bill and you should too!

Regards  
Rachel Trainer
