To Whom It May Concern,

I am NOT in favor of Advanced Clean Cars II Program. Programs like this one impose the ideals of a few individuals onto everyone. This is taking away personal freedom and choice. Most in this state cannot afford to go out and purchase a brand new vehicle. Many are struggling to pay electrical bills. It is not right to force people into an even more challenging financial situation than they already are in. To not only have to have a car that meets this mandate, but to have the financial strain of higher monthly bills, will break many homes in this state and will break our state financially.

When one honestly looks at the state of the economy in California, it is clear that these green policies are not making a positive impact. California is hurting economically. I have many family members who live there and tell me of the financial struggles they are facing. Let us vow to not do this to Maine!

Please respect the majority of what Mainers want and put an end to this Advanced Clean Car II Program. American freedom is choice. I choose No.

Respectfully,

Rebekah Cheney
