Dear Maine BEP,

This is the dumbest thing I have ever heard of. EV's are too expensive for regular Mainers, there is no place to charge them. Maine is too big and has too many remote areas for this to work. It is simply crazy. It will raise the cost of regular vehicles which are already way too expensive due to massive inflation. You people are crazy to even think of such an idea. It has no merit and will do nothing in terms of the world's climate. It will however severely punish the good people of the State of Maine. Shame on you.

Sincerely,

Richard Morse
