This rule is an amazingly bad idea. I would hope the BEP would actually listen to the concerns of Mainers who have no use for turning Maine into California. Let us as consumers decide what kind of vehicles we want to buy. If someone wants to go electric...go for it. However, there are tens of thousands of Maine residents who have no use for electrics for a variety of reasons, all of which are valid.

If I decidel want a vehicle that runs on gasoline I should have the freedom of choice to buy one. It is my choice. So hands off BEP.
