We do not want electric vehicles in Maine. I drove one for two days, for me to get to Bangor from Presque Isle I would have to stop and charge the vehicle twice before my destination. It would take over an hour for the vehicle to charge each time. It would take me almost 5 hours to get to Bangor! We don't have time for this, we live in a cold climate, we need dependable, warm vehicle. I have to go out in the country roads to visit remote clients, I need a vehicle I can depend on.

We are not California. Do your own research for Maine and Maine people.

Concerned citizen.
