The State of Maine is NOT California! We have very different needs that govern our decisions on what type of transportation to utilize in our daily lives. We have very different weather, travel complexities, electric power reliability issues, and most of all, independent thinking people that are aware of their own individual needs and the effects of their decisions on the state.

Do not create more problems for the people of Maine by mandating rules that will incapacitate our own state's well-being.

Ronald Mansell  
Newburgh, Maine
