My issue is we live in the state of Maine not California. Clearly we should not be following in California's foot steps as they can't even pay their own bills. Our climate does not support EVS and insurance too high, batteries cost too much. OUR ELECTRICITY RATE TOO HIGH CAN'T AFFORD IT. I retired 3 years ago the cost of electricity has gone up about 50.00 per month it is not economical for a lot of of us. The people are not given a choice any more, what happened to we the people for the people by the people. DO WE COUNT ANYMORE IT SURE DOESN'T SEEM LIKE IT GOD HELP US ALL!!!!!!!!!!!!
