As a Maine constituent I am firmly against Rule 127-A. To mandate any sort of forced sales is taking away peoples freedoms. The state of Maine has already proposed and put into effect too many of these rulings, against the people's desires.

The cost to consumers will be astronomical and not everyone wants to drive an electric vehicle. What will be needed to sustain this again falls on the people to pay for. Forcing car dealerships to carry and sell inventory that not all consumers want and can't afford will break them. People should be able to choose what kind of car they want to drive.

Try to listen to the voices of who you really work for and vote no on this proposed ruling.

Thank you  
Sarah McLaughlin
