I am 100% opposed to the Advanced Clean Cars II Program. I travel to California regularly. The state is an absolute mess because of over government regulation like this. It has the highest taxes, the fourth highest average utility bills and the highest gas prices. All of these costs are self inflicted. Mainers cannot afford these self inflicted financial hardships while countries like China and India continue to build massive quantities of new coal fired power plants. Vote against this measure and allow Mainers the freedom of choice on vehicles and a chance to keep costs low.
