I do not believe we should be forced to buy an electric car. How would we drive to our camps in the woods when we wouldn't be able to charge them because we have no electricity. How would we charge them if we lost electricity. If anyone wants to buy an electric car wonderful if they can afford it. My son use to drive a Tesla. He's a doctor and can afford it but no one should be forced into buying an electric car especially here in Maine.
