The majority of the citizens of Maine do not agree with this petition. We should not be looking to California to help us determine what we do here. Maine is a very rural state, it takes hours to drive from the southern part of the state to the northern part. It is a cold climate, with freezing temperatures in the winter. These electric vehicles are not the task yet for Maine. If people want to purchase one, good for them. It should be a choice. Let the market determine how many are for sale in Maine.

Thank you
Stacey Modrusan
