As a rural Mainer I am opposed to the mandate on electric vehicles. I travel 40 miles each way to and from work. Electric would not be the best option for me. I drive a hybrid rav 4 that gets amazing fuel milage without the added burden of charging. the expense would be prohibitive for me as well. I am doing what I can to reduce my burden on the environment without being forced. Please do not force this added financial burden on Mainers.

Sincerely, Sue Knowles, Sherman, Maine
