HDPE (#2)	HDPE (#2) - flexible and film forms	Flexible or film HDPE (#2) forms displaying #2 that is comprised of at least 60% by	
,	= (,	weight HDPE (#2).	
HDPE (#2)	HDPE (#2) - small forms	HDPE (#2) forms having two or more sides or a diameter measuring 2 inches or less	
		dispalying #2 that is comprised of at least 60% by weight HDPE (#2).	
HDPE (#2)	HDPE (#2) - others forms	HDPE (#2) forms not captured in the HDPE (#2) packaging material types listed herein.	
PVC (#3)	PVC (#3) forms	Rigid and flexible PVC (#3) forms.	
PVC (#3)	PVC (#3) ionns PVC (#3) - small forms	PVC (#3) forms with two or more sides or a diameter measuring 2 inches of less.	
LDPE (#4)	LDPE (#4) bottles, jugs, and jars	Rigid LDPE (#4) bottle, jug, jar, or other blow-molded form displaying #4 that is	
		comprised of at least 60% by weight LDPE (#4) or LLDPE.	
LDPE (#4)	LDPE (#4) - flexible and film forms	Flexible or film LDPE (#4) forms displaying #4 that is comprised of at least 60% by weight	
LDPE (#4)	LDPE (#4) - small forms	LDPE (#4) or LLDPE. LDPE (#4) forms having two or more sides or a diameter measuring 2 inches or less	
LDFL (#4)	LDFL (#4) - SMattionns	displaying #4 that is comprised of at least 60% by weight LDPE (#4) or LLDPE.	
LDPE (#4)	LDPE (#4) - other forms	Any LDPE (#4) forms not captured in the LDPE (#4) packaging material types listed	
		herein.	
PP (#5)	PP (#5) bottles, jugs, and jars	Rigid PP (#5) bottle, jug, jar, or other blow-molded form, displaying #5 that is comprised	Υ
PP (#5)	PP (#5) - other rigids	of at least 60% by weight PP (#5). Rigid PP (#5) tub, lid, pail, bucket, or other thermoform or injection molded form less than	
11 (#3)	TT (#3) Other rigids	5 gallons displaying #5 that is comprised of at least 60% by weight PP (#5).	Υ
PP (#5)	PP (#5) - bulky rigids	Rigid PP (#5) tub, lid, pail, bucket, or other thermoform or injection molded form that is	
		more than 5 gallons, displaying #5, and comprised of at least 60% by weight PP (#5).	
PP (#5)	PP (#5) - nursery (plant) pots and trays	PP (#5) pots and trays used to contain plants distributed by nurseries and other retailers	V
		that are less than 5 gallons, displaying #5, and comprised of at least 60% by weight PP (#5).	Y
PP (#5)	PP (#5) - bulky nursery (plant) pots and trays	PP (#5) pots and trays used to contain plants distributed by nurseries and other retailers	
		that are 5 or more gallons, displaying #5, and comprised of at least 60% by weight PP	
		(#5).	
PP (#5)	PP (#5) squeeze tubes	Semi-flexible tube that is pinched off at one end and has a rigid shoulder at the other end,	
PP (#5)	PP (#5) flexible and film forms	displaying #5, and is comprised of at least 60% by weight PP (#5). Flexible or film PP (#5) forms, displaying #5, and are comprised of at least 60% by weight	
("0)	Tr (no) noxible and numberine	PP (#5).	
PP (#5)	PP (#5) - small forms	PP (#5) forms with two or more sides or a diameter measuring 2 inches of less,	
		displaying #5, and arecomprised of at least 60% by weight PP (#5).	
PP (#5)	PP (#5) - other forms	Any PP (#5) forms not captured in the PP (#5) packaging material types listed herein.	
PS (#6)	PS (#6) non-expanded forms	Rigid PS (#6) forms that are not expanded, displaying #6, and are comprised of at least 60% by weight PS (#6).	
PS (#6)	PS (#6) expanded/foam cushioning	Expanded/foamed PS (#6) cushioning displaying #6 that is comprised of at least 60% by	
		weight PS (#6).	
PS (#6)	PS (#6)- other expanded forms	Any expanded PS (#6) forms that are not captured by the PS (#6) packaging material tyes	
DS (#6)	DS (#6) small forms	listed herein. PS (#6) forms with two or more sides or a diameter measuring 2 inches of less displaying	
PS (#6)	PS (#6)- small forms	PS (#6) forms with two or more sides or a diameter measuring 2 inches of less, displaying #6, and are comprised of at least 60% by weight PS (#6).	
Mixed resin (#7)	Mixed resin (#7) laminates	Flexible and film forms comprised of multiple plastic resins with any coatings,	
		lamination, or other barrier, such as metalized foil, plastic, wax, or silicone, where plastic	
		is the main component.	
Mixed resin (#7)	Compostable mixed resin (#7) forms	All sizes of mixed resin (#7) designed for direct food contact and is capable of undergoing	
		composting as shown by third-party certifications to ASTM D6400, ASTM D6868, or ASTM D8410.	
Mixed resin (#7)	Mixed resin (#7) - textile forms	Textile forms, such as woven fabric or netting, made of synthetic fibers, such as acrylic,	
,		melamine, polyester, and nylon.	
Mixed resin (#7)		Mixed resin (#7) containers for hazardous materials (flammable, corrosive, reactive,	
Mixed was in (117)		toxic).	
Mixed resin (#7)	Mixed resin (#7) - small forms	Mixed resin (#7) forms with two or more sides or a diameter measuring 2 inches of less.	
Mixed resin (#7)	Mixed resin (#7) - other forms	Forms not captured in the mixed resin (#7) packaging material types listed herein.
