

Base Material	Packaging Material Type	Description	Colorado Reporting Category 1	Colorado Reporting Category 2	Colorado Reporting Category 3	Colorado Reporting Category 4	Colorado Reporting Category 5
Glass	Glass - clear containers	Clear bottles, jars, jugs, and other containers that are comprised of at least 60% by weight container glass.	Glass and Ceramics: Glass Bottles and Jars & Other Containers				
Glass	Glass - colored containers	Colored bottles, jars, and jugs that are comprised of at least 60% by weight container glass.	Glass and Ceramics: Glass Bottles and Jars & Other Containers				
Glass	Ceramic forms	Forms made of ceramic.	Glass and Ceramics: Ceramic - All Forms				
Glass	Glass - other forms	Glass forms not captured in the glass packaging material types herein, such as non-container glass like borosilicate.	Glass and Ceramics: Glass Bottles and Jars & Other Containers				
Metal	Aluminum forms	Rigid containers and lids with a diameter of more than 2 inches that are comprised of at least 60% by weight aluminum.	Metal: Aluminum Containers				
Metal	Aluminum- aerosol containers	An aluminum non-refillable receptacle containing a propellant serving to eject the product from the receptacle.	Metal: Aluminum Aerosol Containers				
Metal	Aluminum foil and molded containers	Aluminum foil and molded containers that are comprised of at least 60% by weight aluminum.	Metal: Aluminum Foil and Molded Containers				
Metal	Aluminum - other forms	Aluminum forms that are not captured in the aluminum packaging material types listed herein.	Metal: Aluminum - Other Forms				
Metal	Tin/steel forms	Rigid containers and lids with a diameter of more than 2 inches that are comprised of at least 60% by weight tin/steel.	Metal: Steel Containers				
Metal	Tin/steel aerosol containers	An tin/steel non-refillable receptacle containing a propellant serving to eject the product from the receptacle.	Metal: Steel Aerosol Containers				
Metal	Tin/steel - other forms	Tin/steel forms that are not captured in the tin/steel packaging material types listed herein.	Metal: Steel - Other Forms				
Metal	Metal - pressurized cylinders	Aluminum or tin/steel receptacles containing compressed gas, such as seamless cylinders and tubes, welded cylinders, and insulated cylinders.	Metal: Pressurized Cylinders				
Metal	Metal - small forms	Aluminum or tin/steel forms with 2 or more sides or a diameter that measures less than 2 inches that are comprised of at least 60% by weight aluminum or tin/steel.	Metal: Metal - Small Format				
Metal	Metal - other forms	Metal forms that are not captured in the metal packaging material types listed herein.					
Paper	Corrugated cardboard	Cardboard (consisting of a fluted corrugated sheet and one or two flat linerboards) without any coatings (other than clay or varnish), lamination, wet strength resins, or other non-paper barrier and is comprised of at least 60% by weight paper.	Paper/Fiber: Corrugated Cardboard				
Paper	Polycoated corrugated cardboard	Cardboard that is coated or laminated with at least one layer of plastic polymer and is comprised of at least 60% by weight paper.	Paper/Fiber: Corrugated Cardboard				
Paper	Waxed corrugated cardboard	Cardboard that is waxed and is comprised of at least 60% by weight paper.	Paper/Fiber: Waxed Corrugated Cardboard				
Paper	Polycoated paperboard	Unbleached paperboard that has a polyethylene (or other plastic) coating or lamination on the inner side of the packaging only, or bleached paperboard that has a polyethylene (or other plastic) coating or lamination on either the inner or outer sides of the packaging or both that are comprised of at least 60% by weight paper.	Paper/Fiber: Polycoated Paperboard				
Paper	Aseptic and gable-top cartons	Shelf stable (aseptic) and refrigeration (gable-top) cartons comprised of paperboard, polyethylene and aluminum (aseptic) and paperboard and polyethylene (gable-top) that are comprised of at least 60% by weight paper.	Paper/Fiber: Aseptic and Gable-top Cartons				
Paper	Uncoated paper forms	Paper forms without any coatings (other than clay or varnish), lamination, wet-strength additives, or other non-paper barrier that are comprised of at least 60% by weight paper. Includes molded containers made from wood and non-wood sources, such as bamboo and bagasse.	Paper/Fiber: Kraft Paper	Paper/Fiber: Other Paper Packaging – Molded Pulp Food Serviceware	Paper/Fiber: Other Paper Packaging	Paper Products: Newsprint (inserts and circulars)	Paper Products: Paper for General Use
Paper	Uncoated paperboard	Paperboard, such as boxboard, chipboard, containerboard, or linerboard, without any coatings (other than clay or varnish), lamination, wet strength resins, or other non-paper barrier (such as metalized foil, plastic, wax, or silicone) that are comprised of at least 60% by weight paper.	Paper/Fiber: Paperboard				

Base Material	Packaging Material Type	Description	Colorado Reporting Category 1	Colorado Reporting Category 2	Colorado Reporting Category 3	Colorado Reporting Category 4	Colorado Reporting Category 5
Paper	Paper - other coated forms and laminates	Paper forms, such as carrier stock, with any coatings, lamination, wet-strength additives, or other non-paper barrier, such as metalized foil, plastic, wax, or silicone and is comprised of at least 60% by weight paper.	Paper/Fiber: Other Paper Laminates				
Paper	Compostable paper forms	Paper forms designed for direct food contact and is capable of undergoing composting as shown by third-party certifications to ASTM D6400, ASTM D6868, or ASTM D8410.	Certified Compostable Packaging and Food Service Ware: Paper - Certified to ASTM D8410-22				
Paper	Paper - small forms	Paper forms with two or more sides or a diameter measuring less than 2 inches and is comprised of at least 60% by weight paper.	Paper/Fiber: Paper - Small Format	Paper Products: Other Printed Materials			
Paper	Paper - other forms	Paper forms not captured in the paper packaging material types listed herein.	Paper Products: Other Printed Materials				
Wood/cork	Wood/cork forms	Rigid forms made of treated and untreated wood, cork, bamboo, or other non-synthetic organic.	Wood and Other Organics: Wood and Other Organics				
Wood/cork	Wood/cork - textile forms	Textile forms, such as a cloth or woven fabric, made of nonsynthetic fibers, such as cotton, hemp, or other non-synthetic organic.	Wood and Other Organics: Wood and Other Organics				
PET (#1)	PET (#1) clear bottles, jugs, and jars	Rigid, clear or transparent, including transparent blue and transparent green, PET (#1) bottle, jug, jar, or other blow-molded form displaying #1 and comprised of 60% by weight PET (#1).	Rigid - Plastic: PET (#1) - Bottles, Jugs, and Jars (Clear/Natural)				
PET (#1)	PET (#1) colored bottles, jugs, and jars	Rigid, pigmented, including carbon black, PET (#1) bottle, jug, or other blow-molded form displaying #1 and comprised of 60% by weight PET (#1).	Rigid - Plastic: PET (#1) - Bottles, Jugs, and Jars (Pigmented/Color)				
PET (#1)	PET (#1) clear other rigids	Rigid, clear or transparent, including transparent blue and transparent light green, PET (#1) cup, plate, lid, tray, tub, other thermoform, or injection molded form displaying #1 and comprised of 60% by weight PET (#1).	Rigid - Plastic: PET (#1) - Other Rigid Containers, Cups, Lids, Plates, Trays, Tubs (Clear/Natural)				
PET (#1)	PET (#1) colored other rigids	Rigid, pigmented, including carbon black, PET (#1) cup, plate, lid, tray, tub, other thermoform, or injection molded form displaying #1 and comprised of 60% by weight PET (#1).	PET (#1) - Other Rigid Containers, Cups, Lids, Plates, Trays, Tubs (Pigmented/Color)				
PET (#1)	PET (#1) - small forms	PET (#1) forms having two or more sides or a diameter measuring 2 inches or less displaying #1 and comprised of 60% by weight PET (#1).	Rigid - Plastic: Plastic - Small Format				
PET (#1)	PET (#1) - other forms	PET (#1) forms not captured in the PET (#1) packaging material types listed herein.	Rigid - Plastic: PET (#1) - Other Rigid Items				
HDPE (#2)	HDPE (#2) natural bottles, jugs, and jars	Rigid, natural HDPE (#2) bottle, jug, jar, or other blow-molded form dispalying #2 that is comprised of at least 60% by weight HDPE (#2).	Rigid - Plastic: HDPE (#2) - Bottles, Jugs and Jars (Clear/Natural)				
HDPE (#2)	HDPE (#2) colored bottles, jugs, and jars	Rigid, pigmented, excluding carbon black, HDPE (#2) bottle, jug, jar, or other blow-molded form displaying #2 that is comprised of at least 60% by weight HDPE (#2).	Rigid - Plastic: HDPE (#2) - Bottles, Jugs and Jars (Pigmented/Colored)				
HDPE (#2)	HDPE (#2) carbon black bottles, jugs, and jars	Rigid HDPE (#2) bottle, jug, jar, or other blow-molded form that is pigmented with carbon black dispalying #2 that is comprised of at least 60% by weight HDPE (#2).	Rigid - Plastic: HDPE (#2) - Bottles, Jugs and Jars (Pigmented/Colored)				
HDPE (#2)	HDPE (#2) - other rigids	Rigid HDPE (#2) tub, lid, pail, bucket, other thermoform, or injection molded form that is less than 5 gallons, displaying #2, and comprised of at least 60% by weight HDPE (#2).	Rigid - Plastic: HDPE (#2) - Pails & Buckets	Rigid - Plastic: HDPE (#2) - Tubs			
HDPE (#2)	HDPE (#2) - bulky rigids	Rigid HDPE (#2) tub, lid, pail, bucket, other thermoform, or other injection molded form that is 5 or more gallons, displaying #2, and comprised of at least 60% by weight HDPE (#2).	Rigid - Plastic: HDPE (#2) - Pails & Buckets	Rigid - Plastic: HDPE (#2) - Tubs			
HDPE (#2)	HDPE (#2) - nursery (plant) pots and trays	HDPE (#2) pots and trays used to contain plants distributed by nurseries and other retailers that are less than 5 gallons, displaying #2, and comprised of at least 60% by weight HDPE (#2).	Rigid - Plastic: HDPE (#2) - Nursery (plant) pots & trays				
HDPE (#2)	HDPE (#2) - bulky nursery (plant) pots and trays	HDPE (#2) pots and trays used to contain plants distributed by nurseries and other retailers that are 5 or more gallons, displaying #2, and comprised of at least 60% by weight HDPE (#2).	Rigid - Plastic: HDPE (#2) - Nursery (plant) pots & trays				
HDPE (#2)	HDPE (#2) containers for hazardous products	HDPE (#2) containers for hazardous materials (flammable, corrosive, reactive, toxic).	Plastic - Other: Plastic Packaging - Hazardous or Special Products				
HDPE (#2)	HDPE (#2) squeeze tubes	Semi-flexible tube, that is pinched off at one end and has a rigid shoulder at the other end, dispalying #2 that is comprised of at least 60% by weight HDPE (#2).	Rigid - Plastic: HDPE (#2) - Squeeze Tubes				
HDPE (#2)	HDPE (#2) - flexible and film forms	Flexible or film HDPE (#2) forms displaying #2 that is comprised of at least 60% by weight HDPE (#2).	Plastic - Flexible: HDPE (#2)/ LDPE (#4) Flexible and Film Items				
HDPE (#2)	HDPE (#2) - small forms	HDPE (#2) forms having two or more sides or a diameter measuring 2 inches or less dispalying #2 that is comprised of at least 60% by weight HDPE (#2).	Rigid - Plastic: Plastic - Small Format				

Base Material	Packaging Material Type	Description	Colorado Reporting Category 1	Colorado Reporting Category 2	Colorado Reporting Category 3	Colorado Reporting Category 4	Colorado Reporting Category 5
HDPE (#2)	HDPE (#2) - others forms	HDPE (#2) forms not captured in the HDPE (#2) packaging material types listed herein.	Rigid - Plastic: HDPE (#2) - Other Rigid Items				
PVC (#3)	PVC (#3) forms	Rigid and flexible PVC (#3) forms.	Rigid - Plastic: PVC (#3) - Rigid Items				
PVC (#3)	PVC (#3) - small forms	PVC (#3) forms with two or more sides or a diameter measuring 2 inches of less.	Rigid - Plastic: Plastic - Small Format				
LDPE (#4)	LDPE (#4) bottles, jugs, and jars	Rigid LDPE (#4) bottle, jug, jar, or other blow-molded form displaying #4 that is comprised of at least 60% by weight LDPE (#4) or LLDPE.	Rigid - Plastic: LDPE (#4) - Bottles, Jugs and Jars				
LDPE (#4)	LDPE (#4) - flexible and film forms	Flexible or film LDPE (#4) forms displaying #4 that is comprised of at least 60% by weight LDPE (#4) or LLDPE.	Plastic - Flexible: HDPE (#2)/ LDPE (#4) Flexible and Film Items				
LDPE (#4)	LDPE (#4) - small forms	LDPE (#4) forms having two or more sides or a diameter measuring 2 inches or less displaying #4 that is comprised of at least 60% by weight LDPE (#4) or LLDPE.	Rigid - Plastic: Plastic - Small Format				
LDPE (#4)	LDPE (#4) - other forms	Any LDPE (#4) forms displaying #4 not captured in the LDPE (#4) packaging material types listed herein.	Rigid - Plastic: LDPE (#4) - Other Rigid Items				
PP (#5)	PP (#5) bottles, jugs, and jars	Rigid PP (#5) bottle, jug, jar, or other blow-molded form, displaying #5 that is comprised of at least 60% by weight PP (#5).	Rigid - Plastic: PP (#5) - Bottles, Jugs and Jars				
PP (#5)	PP (#5) - other rigids	Rigid PP (#5) tub, lid, pail, bucket, other thermoform, or injection molded form less than 5 gallons displaying #5 that is comprised of at least 60% by weight PP (#5).	Rigid - Plastic: PP (#5) - Containers, Cups, Lids, Plates, Trays, Tubs				
PP (#5)	PP (#5) - bulky rigids	Rigid PP (#5) tub, lid, pail, bucket, other thermoform, injection molded form that is more than 5 gallons, displaying #5, and comprised of at least 60% by weight PP (#5).	Rigid - Plastic: PP (#5) - Containers, Cups, Lids, Plates, Trays, Tubs				
PP (#5)	PP (#5) - nursery (plant) pots and trays	PP (#5) pots and trays used to contain plants distributed by nurseries and other retailers that are less than 5 gallons, displaying #5, and comprised of at least 60% by weight PP (#5).	Rigid - Plastic: PP (#5) - Nursery (plant) pots & trays				
PP (#5)	PP (#5) - bulky nursery (plant) pots and trays	PP (#5) pots and trays used to contain plants distributed by nurseries and other retailers that are 5 or more gallons, displaying #5, and comprised of at least 60% by weight PP (#5).	Rigid - Plastic: PP (#5) - Nursery (plant) pots & trays				
PP (#5)	PP (#5) squeeze tubes	Semi-flexible tube that is pinched off at one end and has a rigid shoulder at the other end, displaying #5, and is comprised of at least 60% by weight PP (#5).	Rigid - Plastic: PP (#5) – Squeeze Tubes				
PP (#5)	PP (#5) flexible and film forms	Flexible or film PP (#5) forms, displaying #5, and are comprised of at least 60% by weight PP (#5).	Plastic - Flexible: PP (#5) Flexible and Film Items				
PP (#5)	PP (#5) - small forms	PP (#5) forms with two or more sides or a diameter measuring 2 inches of less, displaying #5, and are comprised of at least 60% by weight PP (#5).	Rigid - Plastic: Plastic - Small Format				
PP (#5)	PP (#5) - other forms	Any PP (#5) forms displaying #5 not captured in the PP (#5) packaging material types listed herein.	Rigid - Plastic: PP (#5) - Other Rigid Items				
PS (#6)	PS (#6) non-expanded forms	Rigid PS (#6) forms that are not expanded, displaying #6, and are comprised of at least 60% by weight PS (#6).	Rigid - Plastic: PS (#6) Rigid Non-Expanded				
PS (#6)	PS (#6) expanded/foam cushioning	Expanded/foamed PS (#6) cushioning displaying #6 and comprised of at least 60% by weight PS (#6).	Rigid - Plastic: PS (#6) - White Expanded/Foamed Cushioning	Rigid - Plastic: PS (#6) Colored Expanded/Foamed Cushioning			
PS (#6)	PS (#6)- other expanded forms	Any expanded PS (#6) forms displaying #6 that are not captured by the PS (#6) packaging material tyes listed herein.	Rigid - Plastic: PS (#6) -Expanded/ Foamed Hinged Containers, Plates, Cups, Tubs, Trays, and Other Foamed Containers				
PS (#6)	PS (#6)- small forms	PS (#6) forms with two or more sides or a diameter measuring 2 inches of less, displaying #6, and are comprised of at least 60% by weight PS (#6).	Rigid - Plastic: Plastic - Small Format				
Mixed resin (#7)	Mixed resin (#7) laminates	Flexible and film forms comprised of multiple plastic resins with any coatings, lamination, or other barrier, such as metalized foil, plastic, wax, or silicone, where plastic is the main component.	Plastic - Flexible: Plastic Laminates and Other Flexible Plastic Packaging				
Mixed resin (#7)	Compostable mixed resin (#7) forms	All sizes of mixed resin (#7) designed for direct food contact and is capable of undergoing composting as shown by third-party certifications to ASTM D6400, ASTM D6868, or ASTM D8410.	Certified Compostable Packaging and Food Service Ware: Plastic and Polymer Coated Substrates - Certified to ASTM D6868-21	Certified Compostable Packaging and Food Service Ware: Rigid Plastic - Certified to ASTM D6400-23	Certified Compostable Packaging and Food Service Ware: Flexible Plastic - Certified to ASTM D6400-23		
Mixed resin (#7)	Mixed resin (#7) - textile forms	Textile forms, such as woven fabric or netting, made of synthetic fibers, such as acrylic, melamine, polyester, and nylon.	Plastic - Flexible: Plastic Laminates and Other Flexible Plastic Packaging				

Base Material	Packaging Material Type	Description	Colorado Reporting Category 1	Colorado Reporting Category 2	Colorado Reporting Category 3	Colorado Reporting Category 4	Colorado Reporting Category 5
Mixed resin (#7)	Mixed resin (#7) containers for hazardous products	Mixed resin (#7) containers for hazardous materials (flammable, corrosive, reactive, toxic).	Plastic - Other: Plastic Packaging - Hazardous or Special Products				
Mixed resin (#7)	Mixed resin (#7) - small forms	Mixed resin (#7) forms with two or more sides or a diameter measuring 2 inches or less.	Rigid - Plastic: Plastic - Small Format				
Mixed resin (#7)	Mixed resin (#7) - other forms	Forms not captured in the mixed resin (#7) packaging material types listed herein and any form, regardless of plastic resin type, not displaying a resin code.	Rigid - Plastic: Other/Mixed Rigid Plastic
